Hotel Cappella, Colfosco

Picture-perfect holidays

LOCATION: Colfosco, Corvara in Badia, Italy

YEAR: 2020

ARCHITECT: Gunnar Schmalzl

LIGHTING DESIGNER: Lichtstudio Project

COMMISSIONED BY: Hotel Cappella

The Hotel Cappella is located in the picturesque village of Colfosco in Alta Badia. Through the generations the Kostner Pizzinini family has passed on the passion for

hospitality, mountain life and sports activity. A number of improvements were undertaken during the years upgrading this current 5 star Hotel.

One of the leading lighting design practices of Alto Adige Lichtstudio Project chose Platek as their architectural outdoor lighting partner. TARGET in the small and medium size allows to highlight shapes, volumes and colours of structures that have a perfect mix of traditional and modern design elements. The NANO XL and XXL projectors arranged in clusters create adjustable

beams of light that can be adapted depending on the requirement, CHIODO, designed by Danesi&Buzzoni is concealed within the gardens. The sculptured geometric form of BLEND bollard deigned by Marco Acerbis, illuminates the areas surrounding the small lake. The stainless steel finish is particularly suitable for this very cold environment exposed to extreme conditions.

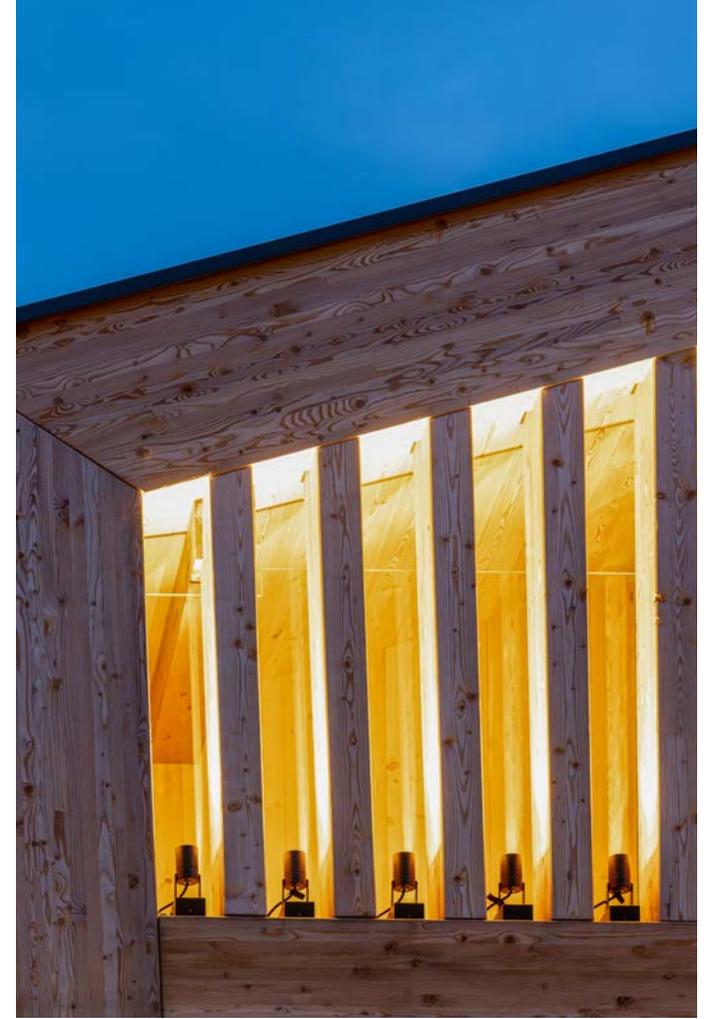

Art is anywhere. Inside, with the presence of different artworks, and outside, with the design of architectural choices.
