# OUTDOOR LIGHTING

IT - Platek è un'azienda internazionale proiettata all'innovazione nel settore dell'illuminazione architettuale e decorativa per esterni. La gamma di prodotti comprende sistemi integrati di illuminazione architettuale, composti da incassi a pavimento, applique, sospensioni, proiettori e paletti, tutti con gruppi ottici con tecnologia LED progettati internamente e realizzati in esclusiva per Platek. Il grande know-how del gruppo Donati, del quale Platek fa parte, nella fusione dei metalli e delle leghe di alluminio ha permesso all'azienda di progettare e realizzare corpi illuminanti sempre più compatti e performanti, sia sotto il profilo della potenza luminosa che dell'efficienza energetica. Platek indaga il rapporto tra l'uomo e l'ambiente per migliorare la qualità della vita attraverso l'illuminazione efficiente e sostenibile, portando la giusta quantità di luce dove serve per esplorare nuovi modi di vivere gli spazi residenziali, per valorizzare le architetture, il patrimonio storico e per creare paesaggi luminosi nelle aree verdi.

EN - Platek is an international company projected to innovate in the field of architectural and decorative outdoor lighting. The range of products includes integrated architectural lighting systems consisting of floor recessed concealed lighting, appliques, suspensions, projectors and posts. All these products have an optical systems with LED technology, managed internally by the company. The excellent know how of the Donati Group - to which Platek belongs - in metal casting allowed the company to design and realize increasingly compact and high-performance lighting fixtures, both in terms of luminous power and energy efficiency. Platek investigates the relationship between man and the environment to improve quality of life through efficient and sustainable lighting, bringing the right quantity of light where needed in order to explore new ways of reviving residential spaces, to enhance the architecture, the historical and the cultural heritage of the area, and to create luminous landscapes in green areas.

# FINISHING PLUS

## IT - TRATTAMENTI SPECIFICI CONTRO LA CORROSIONE

Per evitare i problemi di ossidazione e corrosione degli apparecchi, Platek utilizza un range di leghe di alluminio che variano dal copper free fino all'impiego di leghe primarie. La protezione con trattamento di anodizzazione, eseguita su tutti i componenti idonei, compreso le pressofusioni, garantisce una maggiore resistenza alla corrosione; il fondo di verniciatura con polveri epossidiche permette di ottenere un ulteriore strato di protezione prima della verniciatura poliesteri scelta dal cliente. Il processo di verniciatura svolto su tre fasi in aggiunta all'utilizzo di materiali di prima scelta, garantiscono una elevata affidabilità dei prodotti contro la corrosione.

## EN - SPECIFIC CORROSION-RESISTANT TREATMENT

To avoid the problems of oxidation and corrosion of fixtures, Platek relies upon a range of aluminium alloys ranging from copper-free to the use of primary alloys. The protection provided by anodising performed on all suitable components, including die-castings, provides greater resistance to corrosion; an epoxy powder coating base allows obtaining an additional protection layer before applying a polyester coating selected by the customer. In addition to the use of top-quality materials, the three-phase painting process guarantees high reliability of the products against corrosion.
